

DECLARATION of COMMITMENT

Cultural Safety and Humility in Health Services for First Nations and Aboriginal People in BC

Our Declaration of Commitment is an important signal of our shared intention to embed cultural safety and humility throughout health services, health benefits, and health systems in British Columbia. This reflects the significant priority we as leaders place on cultural safety and humility as essential features and attributes of health care design and delivery. It also reflects a personal desire to serve as champions of cultural safety and humility and create a permissive environment for others to become champions for positive change.

This Declaration of Commitment is based on the following understandings of cultural safety and humility:

- Cultural humility builds relationships founded in mutual trust and respect, and enables cultural safety.
- Cultural safety is defined by each individual's health service experience.
- Cultural safety and humility must be understood, embraced and practiced at all levels of the health system including governance, organizational, and within individual practice.

We, Pacific Blue Cross (PBC) and the First Nations Health Authority (FNHA), understand that strong leadership and concrete actions at multiple levels is how we will visibly demonstrate our intention to embed cultural safety and humility as a means to deliver improved access and quality of services and health benefits to First Nations individuals, families, and communities in British Columbia. We will work to:

IMPLEMENT & SUSTAIN CHANGE
