Health through wellness

# Family Focus Group

Supporting the healing journeys of our loved ones

## Has a member of your family attended a treatment centre funded by the First Nations Health Authority (FNHA)?

### If so, you're invited to a Family Focus Group

The FNHA is inviting family members of loved ones who have attended treatment centres funded by the FNHA to share their thoughts about how to best support and hold up family members struggling with substance use. Participants will receive an honorarium.

Information shared will help the FNHA understand the needs and experiences of clients and their families and inform suggestions for how to improve treatment services and supports.

### What can I expect?

Small groups of family members (under 10 people) from across BC will sit in a virtual circle (via Zoom). A cultural support worker will open and close the session and be available to provide support during and following the discussion. You can share as little or as much as you'd like. Please note, the focus groups are being organized by Ference & Company—a third party evaluation and research consultant.

### Session dates

Monday, June 19 from 2 to 3:30 p.m.  
Thursday, June 22 from 1 to 2:30 p.m.  
Monday, June 26 from 9 to 10:30 a.m.

### Treatment centres funded by the FNHA

Round Lake Alcohol and Drug Treatment  
Namgis First Nation
